OPEN-AIR

Vipp classics reimagined for Open-Air living

COLLECTION

Refined over nearly nine decades, Vipp's design language is brought outdoors with the Open-Air collection. Recognisable forms meet enduring materials in a range designed for open-air living and built to weather the seasons.

The Vipp Open-Air collection owes its name to the functional intent of outdoor use, while equally referencing the airiness and fluidity that underpin the design ethos – light, organic expressions of solid materials.

Immediately identifiable shapes and details recognized from Vipp's indoor furniture are echoed in the outdoor collection, consisting of a two-sized dining table, a café table, a dining chair, a duo of sofas, coffee tables, a lounge chair, and an outdoor tray table.

The Open-Air series follows a design language attuned to the Vipp brand's heritage and predilection for moulded metal but with novel material additions like polyrattan, teak, and curated outdoor textiles.

Vipp742 Open-Air kitchen unit, w. sink

Vipp741 Open-Air kitchen unit, large

Vipp740 Open-Air kitchen unit, small

VIPP740-742

OPEN-AIR KITCHEN

The Open-Air kitchen comprises three freestanding units, each with a tabletop and frame made from powder-coated aluminium. The units feature welded and polished joints and are fitted with an integrated full-width shelf in raw teak with rounded edges, providing easy storage.

Equipped with a built-in stainless steel sink and the Vipp tap with signature knob, the kitchen offers full outdoor functionality. Additionally fitted with adjustable feet allow the kitchen to be levelled on uneven surfaces.

VIPP711
OPEN-AIR CHAIR

The Open-Air chair is modelled after the very first Vipp chair. A grey-coated aluminium frame with rounded edges features polyrattan-covered arm rests and a padded backrest.

Like its original counterpart, the outdoor version carries the same airy expression of spindly legs and armrests divided by a comfortable cushion in waterproof and UV-resistant textile.

VIPP718-719

OPEN-AIR TABLES

The Open-Air tables are one table available in two sizes to suit different outdoor spaces. Both tables feature an aluminium frame supporting a 12 mm ceramic tabletop and conical teak wood legs.

The Vipp718 measures 1.57 meters in length, while the larger Vipp719 spans 2.5 meters. The tables are equipped with small adjustable feet, allowing them to be levelled on uneven surfaces.

VIPP401
OPEN-AIR TRAY TABLE

Reimagined for the outdoors, the Vipp tray table is available in a warm grey colour. Featuring durable aluminium and silicone details, including protective silicone edges on the tabletop and feet, the Open-Air tray table is perfect for coffee on the terrace.

A non-skid, dishwasher-safe silicone mat adds a functional touch, while foldable legs allow for easy storage.

VIPP713

OPEN-AIR LOUNGE CHAIR

Modelled after its indoor counterpart, the lounge chair iterated for the outdoors is available in a grey coating matching the two separate, removable, and washable cushions making up the backrest and the seat.

The upholstery specially made for outdoor use is made in a water and UV-resistant textile.

VIPP714, 716

OPEN-AIR COFFEE TABLES

The smallest of the two coffee tables combines spindly legs with a 12 mm solid ceramic top. Consisting of a three-legged aluminium frame, the Ø60 coffee table offers a durable and monochrome look for the lounge area. Combine it with the Open-Air coffee table Ø90 cm.

Slim teak lamellas placed in a graphic pattern make up the tabletop resting on a three-legged aluminium frame of the larger Ø90 coffee table in the Open-Air collection.

VIPP717

OPEN-AIR CAFÉ TABLE

A new café table design has been added to the Open-Air collection. Made entirely from powder-coated aluminium, the Ø75 café table is lightweight and easy to move wherever it's needed.

VIPP717

OPEN-AIR CAFÉ TABLE

The tabletop is a single sheet of aluminium with grooves designed to optimise water drainage. Resting atop a four-legged base made of powder-coated aluminium, the material is selected for its durability and resistance to outdoor conditions. Adjustable levelling gliders ensure stability on uneven terrain.

Vipp720 Open-Air sofa, 3-seater

Vipp740 Open-Air coffee table, Ø60

VIPP720

OPEN-AIR SOFA, OPEN END

The comfort of the living room is brought to the terrace with Vipp's outdoor sofa. Made in aluminium and fitted with quick-dry foam and water repellant outdoor fabric, the sofa frame is able to resist outdoor conditions by preventing rust and discolouration.

The Open-Air sofa with open end is available with both left-and right-oriented open ends, each featuring an integrated side table made from solid teak lamellas.

VIPP720

OPEN-AIR SOFA, 3-SEATER

The 3-seater is made with a specially designed strap system integrated beneath the seat cushions to enhance comfort. The straps remain visible, echoing the rhythmic pattern of the backrest and armrests. The back cushions and bolster are made from a mix of fibre and foam.

LAGRASSE

A series of versatile garden nomads

COLLECTION

Lightweight yet stable, easy to move yet comfortable, the Lagrasse series of chairs, tables, and lounge furniture integrates effortlessly into both private and public spaces. Designed to adapt with ease, the collection extends its versatility across terraces, balconies, and poolside settings.

The name Lagrasse derives from a Vipp guesthouse project that opened in Spring 2025. Set in the medieval French village of Lagrasse, where narrow winding streets, ancient stone walls, and intimate outdoor corners define the surroundings, the project inspired an outdoor collection made for smaller, lived-in spaces.

Intended for smaller spaces or as versatile garden nomads, the Lagrasse collection offers sociable seating settings regardless of size. The collection includes a dining chair, a lounge chair, a two-seater, a coffee table, a side table, and dining tables in two sizes, all crafted with a powder-coated aluminium frame.

A curved backrest extends to form the armrests on all seating products, wrapped in woven cord to enhance the collection's light expression. The tables feature solid aluminium tops with grooves, echoing the cord pattern in the chairs while providing practical water drainage.

CANCANS

VIPP710

LAGRASSE CHAIR

Designed for versatility in compact outdoor spaces, the Lagrasse chair features a lightweight yet sturdy powder-coated aluminium frame. A distinctive woven cord detail wraps around the curved backrest and armrests, adding both texture and refined elegance.

The chair's stackable design allows for easy storage, accommodating up to four chairs. For enhanced comfort, an optional cushion in durable outdoor textile is available.

VIPP732-733

LAGRASSE DINING TABLE

A new dining table, available in two sizes, joins the Vipp Lagrasse outdoor collection. Defined by a powder-coated aluminium tabletop and galvanised steel legs, parallel grooves stretch across the width, echoing the collection's airy expression.

VIPP732-733

LAGRASSE DINING TABLE

Made to withstand the elements, the Lagrasse dining table features a powder-coated galvanised steel frame combined with an aluminium table-top for a durable finish that resists sun, rain, and daily wear.

The angular profile gives the table a distinct look, while adjustable levelling gliders ensure stability on uneven surfaces.

Vipp733 Lagrasse dining table

Vipp710 Lagrasse chair

VIPP712

LAGRASSE LOUNGE CHAIR

With its reclined seat, the Lagrasse lounge chair offers a relaxed take on outdoor seating. The powder-coated aluminium frame, encased with woven cord detailing, is precision-welded for durability while keeping the chair lightweight and stackable for easy storage.

Cushions upholstered in a specially developed outdoor fabric are available. The materials are thoughtfully toned to complement each other, ensuring a harmonious look.

VIPP707

LAGRASSE COFFEE TABLE

A new coffee table has been added to the Vipp Lagrasse outdoor collection, featuring a powder-coated galvanised steel frame for durability. Grooves in the tabletop echo this light, graphic expression, while its angular profile provides a signature look. Adjustable levelling gliders keep the table stable on uneven surfaces.

VIPP706

LAGRASSE SIDE TABLE

The new side table complements the Lagrasse outdoor collection. As with the other tables, it features a single-sheet aluminium tabletop on a powder-coated galvanised steel frame.

Compact and versatile, it can be used alongside the coffee table or as a standalone piece. Adjustable levelling gliders ensure stability on uneven surfaces.

VIPP721

LAGRASSE TWO-SEATER

The Lagrasse two-seater extends the same minimalist design concept found in the collection's dining and lounge chairs. Perfect for relaxing or socializing in smaller outdoor spaces, this two-seater maintains the harmonious aesthetic of the series.

Add cushions for a plush, cozy seating experience. Upholstered in outdoor fabric, the cushions feature velcro straps for secure attachment to the frame.

BUILT TO LAST

Index

MADE TO CARE FOR

Rooted in Danish design tradition, the Vipp outdoor collections present a series of consciously designed furniture pieces, crafted with care and built from durable materials.

The collections feature outdoor textiles selected for longevity, FSC™-certified teak ensuring responsible sourcing, and powder-coated aluminium and galvanised steel for durability and stability.

Clean lines and understated detailing, paired with industrial precision, reflect Vipp furniture for outdoor living.

TEAK

Natural teak wood provides a warm contrast to the Open-Air collection. Over time, the teak will weather to a more silver/grey patina as it reacts to outdoor conditions. Teak wood is well suited for outdoor use due to its natural antimicrobial properties, helping to resist mildew and mould.

As wood is a natural material that expands and contracts in response to heat and humidity, small cracks may develop as part of the natural weathering process. All teak wood used in Vipp products is crafted by hand and will have some variance in its expression.

Products: Vipp713 Open-Air lounge chair, Vipp716 Open-Air coffee table Ø90, Vipp718-719 Open-Air tables, Vipp720 Open-Air sofa open end, 740-742 Open-Air kitchen.

CERAMICS

Heat-pressed ceramics generates a raw and natural expression. Despite the delicate appearance of the stoneware, the 12 millimeter tabletop is highly durable, resistant to liquids and hard objects.

Products: Vipp714 Open-Air coffee table Ø60, Vipp718-719 Open-Air tables.

CORD

The weaving cord in the Lagrasse collection is designed for all outdoor conditions. It is woven around a strong nylon core to ensure product longevity. The woven cord offers a comfortable, supportive seat while seamlessly blending style and function.

Products: Vipp710 Lagrasse chair, Vipp712 Lagrasse lounge chair, Vipp721 Lagrasse two-seater.

POLYRATTAN

Polyrattan is a durable, synthetic material commonly used for outdoor products. It withstands the elements, resists wear and tear, and maintains its look over time without patinating. Designed for longevity, it offers the natural appeal of rattan with the strength of modern materials.

Products: Vipp711 Open-Air chair, Vipp713 Open-Air lounge chair, Vipp720 Open-Air sofas.

DUNE TEXTILE

The Dune textile is a durable fabric designed to withstand the elements, featuring water and UV-resistance. Woven in a vibrant sand colour, it features a textured surface that adds character and sophistication. Designed for durability, Dune is ideal for outdoor settings, offering resilience against the elements while maintaining a soft, natural look.

Composition: 100% polypropylene
Martindale: 40.000
Pilling: 4/5
Lightfastness: 7/8
Flammability test: BS 5852:Source 0, Cal TB 117

Products: Vipp713 Open-Air lounge chair, Vipp720 Open-Air sofas. Cushions for Vipp710 Lagrasse chair, Vipp712 Lagrasse lounge chair, Vipp721 Lagrasse two-seater.

Certification: Textile is OEKO-TEX STANDARD 100 and Greenguard Gold certified.

MEADOW TEXTILE

The Meadow textile is made from special outdoor materials to ensure a long lifetime, making the products look proper season after season. Woven in a rich sand hue, it boasts a textured surface that enhances the textile's character.

Composition: 100% polypropylene
Martindale: 50.000
Pilling: 5
Lightfastness: 7
Flammability test: Cal TB 117

Products: Vipp711 Open-Air chair, Vipp713 Open-Air lounge chair, Vipp720 Open-Air sofas.

STRAPS

A specially developed system of straps is fitted under the seat cushions to create the nice comfort of the Open-Air sofa. This system is designed to make the straps visible and echo the rhythmic pattern of the back and armrest.

Products: Vipp720 Open-Air sofas.

FRAME

The frames of the outdoor collections are primarily made from powder-coated aluminium. The table legs in the Lagrasse collection are an exception, as they are also crafted from galvanised steel. The frames are made to withstand outdoor conditions, helping to prevent rust and discolouration over time.

The powder-coated finish resists scratching and peeling, adding an extra layer of protection against the elements, making the furniture looking fresh season after season.

Aluminium: Open-Air collection.
Aluminium and galvanized steel: Lagrasse collection.

CARE INSTRUCTIONS

The Vipp Open-Air and Lagrasse outdoor collections are crafted from materials renowned for their durability when properly maintained. By following the care instructions, you can preserve the lasting appeal and appearance of these collections for years to come.

UPHOLSTERY

If cleaning is required, we recommend using a vacuum cleaner to remove any debris from the textile. Avoid hard floor brushes when vacuuming. Keep sharp objects away, and push loose threads back with a blunt object instead of cutting.

Clean regularly with lukewarm water (max 40°C) and mild cleaning agent on a terry cloth, testing on a hidden spot first. In certain situations, if the upholstery has not been well cared for and protected, algae and other foreign organic matter can develop on the surface as it is the case with any furniture left outdoors. We recommend covering the product with a Vipp designated outdoor cover when the product is not in use.

While the fabric itself does not promote the growth of algae and mildew, it can easily develop if organic materials such as food or plant matter are left on the fabric surface for an extended period of time. In very severe cases professional cleaning is recommended. We recommend testing any professional cleaning detergent on a hidden area before cleaning the entire surface.

When cleaning, it is best to treat the entire piece of furniture to prevent any concentrated spots, water rings, or colour difference. Always thoroughly rinse the fabric and cushions with clean water before using them again and allow them to air dry completely. Cushions are made with a waterproof inner coating of the fabric to keep the cushions dry on the inside.

Note

In case water enters the cushions with zipper and the foam becomes wet, we recommend opening the zipper to allow maximum airflow for a faster drying time.

The foam should not be removed from the upholstery, and only if cushion covers are removable they are machine washable.

OUTDOOR POWDER-COATED SURFACES

Keep powder-coated surfaces clear of debris like bird droppings, mud, and leaves to prevent damage. Clean with warm water and mild detergent using a lint-free cloth or soft brush. Finish by wiping dry with a dry cloth.

TEAK WOOD

Over time, teak develops a patina as it weathers. Brush off dirt following the grain to prevent scratches. Dampen with water and a lint-free cloth. Clean with a regular, designated teak cleaner, following the manufacturer's instructions. Use a soft cloth or sponge and clean along the grain to avoid scratches. Rinse lightly with water and let dry.

As wood is a natural material that expands and contracts in response to heat and humidity, small cracks may develop as part of the natural weathering process.

POLYRATTAN

Use a lint-free cleaning cloth or a soft brush with warm water and a mild detergent. Finish by wiping down the surface with a dry cloth.

CERAMIC TABLES

Daily care ensures long-lasting appeal and appearance. Use warm water, mild detergent, and a cloth. If needed, a tile cleaner may be used to clean the entire table surface, following the product instructions carefully.

Lime stains

Clean with mild detergent suitable for painted surfaces and a lint-free cloth. Rinse with water and dry the frame.

Grease stains

Remove using a soft cloth dampened with denatured alcohol or standard glass cleaner.

Note

Be cautious when placing delicate items on the tabletop, as its hard surface may cause damage.

The Vipp outdoor covers are made to store and protect the Open-Air and Lagrasse outdoor collections. Developed in a water repellent and UV resistant textile, the durable cover ensures that the outdoor products are stored properly and stay beautiful for many years. Use of cover will extend the lifetime of the outdoor products and is recommended for rainy days and out-of-season periods. The covers are made-to-measure and can be handwashed when needed.

AVAILABLE FOR THE FOLLOWING PRODUCTS

Vipp712 Open-Air lounge chair · Vipp740-742 Open-Air kitchen · Vipp720 Open-Air sofas · Vipp732-733 Lagrasse dining set (table and up to 6 chairs) · Vipp718-719 Open-Air dining set (table and up to 6 chairs).

TEXTILE

Water repellent, UV resistant textile. Durable even in rough weather conditions.

STORAGE BAGS

Store the covers in the included bag.

Note: the covers must be completely dry before storing.

STRAPS AND CONSTRUCTION

Straps: Straps ensure that the covers stay in place even in windy conditions.

Construction: Air ventilation is essential; hence the covers do not extend all the way to the ground.
